

ComEdge Enterprise Service Suite

Up to the minute financial information is essential to help management make better decisions, increase productivity, reduce risk, and build profits. Through tight integration with all parts of your business, The COMEDGE ENTERPRISE SERVICE SUITE keeps commercial and industrial service providers one step ahead of what today's markets demand: **fast estimates, cost alternatives and answers on the spot.** Built around flexible and efficient workflow functions, COMEDGE eliminates dual data entry and offers integrated accounting, estimating, and project management flexibility to help you manage costs, track change orders, accelerate RFQ's and more. Powerful yet easy to use reporting features help turn data into decisions. As no two service or contract jobs are the same, the flexible database structure and business logic allows you to remain in full control of the job process, ensuring the software fits the way you do business.

Job Management

As organizations look to trim costs and account for expenses in every job, it becomes more important to track where time and money are being spent and manage the processes affecting the bottom line. Through careful logging and classification of materials, labor, subcontractors and miscellaneous expenses, COMEDGE produces comprehensive reports to show the full scope and true costs of a job.

- Supports Bid Jobs as well as Time and Material.
- Change Order Support
- Track Material, Labor, Sub-contractors, Miscellaneous Expenses
- Extensive Statistical Performance Analysis
